

# ASCHB 2023

## Navigating a Wetter World

DISSECTING THE CONFLICTS  
BETWEEN FLOOD ACTION  
& HERITAGE CONSERVATION

Tuesday 13 June  
GLAZIERS HALL  
LONDON

The actions we take to manage water in the built environment will need to change in response to land-use pressures, biodiversity, and of course climate change. Conflict with the historic environment seems unavoidable, but can bridging silos – as we must do – create better solutions for an uncertain future?

Join ASCHB at Glaziers Hall on the Thames for our 2023 conference, where we will be handing the floor to speakers presenting a diverse range of case studies, giving a holistic but practical insight into these complex problems and their potential solutions.

ASCHB MEMBERS £140  
NON MEMBERS £190  
(INCLUDES LUNCH & REFRESHMENTS)  
Limited number of student concessions at £95

Book through Eventbrite,  
or find booking forms and
